Black 0,0,0 #000			

Buttons

Buttons have six separate styles based on their function.

Init Button

Directs to another page, or activates a new function, such as a Save which reloads the page.

Inline Button

If the button activates another state on the page or canceling an action, it is outlined with no background color.

Prompt and Alert buttons

These buttons are connected to the info/help/error Pop Up Modals

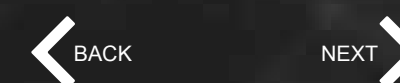

Tool Buttons

Buttons that are attached to a single entity, such as a Filter or Data Stream are considered Tools. Actions that the button inacts on the single entity itself and often group together.

Progression Buttons

Designed to progress the user through any step process, ie the Wizard.

Inactive Buttons

Buttons that are currently disabled, typically waiting on user input.
